

Emergency Services

All Protective Services are available 24 hours a day by calling 911.

Police protection for the town is provided by RCMP. They are located in Saskatoon.

Emergency medical services are available from Saskatoon. A medical doctor has a part time office in town.

Ambulance Service is dispatched by MD Ambulance who also handles all 911 calls. The MD Ambulance non-emergency number is 306.975.8808.

The Town has a registered Emergency Measures Organization Plan in effect. Our Volunteer EMO Coordinator is Heather Martin. She has created a blog for people to follow. To view, please press Ctrl + click the following link. If that does not bring you to the blog, copy the link below and paste into your address bar

Langham Fire Department

The Langham Fire Department responds out of the Town of Langham which is located on Highway #16 thirty kilometers west of Saskatoon, Saskatchewan. LFD consists of fifteen volunteer members from the community. Our members are Level II firefighters, EMT's and First Responders, many of which are cross-trained. Three of our members are also members of Saskatoon District Search and Evidence Recovery Team that works under the RCMP. As well, some members are part of the North Corman Park Search and Rescue Team.

The Langham Fire Department responds to fires, motor vehicle accidents, medical and wild land fire calls. LFD is dispatched under the provincial 911 system by M.D. Ambulance in Saskatoon. We serve a community of 1500 and surrounding area of two hundred and thirty square miles, as well as participate in mutual aid agreement with five other fire departments within Rural Municipality of Corman Park.

The Langham Fire Department is equipped with six emergency service vehicles, including a recently purchased a wild land firefighting truck which members obtained from fundraising efforts and a grant from the Affinity Credit Union. A Town Fire Truck, R.M. Fire Engine, wild land firefighting truck, rescue unit and a member modified medical unit to round out the rest of the fleet. We are one of the only fire department between Langham and North Battleford that is equipped with the Jaws of Life and we respond as far west as Maymont for motor vehicle accidents.

Training is ongoing for the Langham Fire Department whether it is fire, rescue, auto extrication or medical. Tuesday evening is training night for the department with the first Monday of the month being our monthly meeting night.

The Town of Langham is a heart safe community as they have equipped the Langham Fire Department with two automated external defibrillators (AED). An AED delivers an electrical shock to a heart that has stopped beating and allows the heart to "reset" to a normal rhythm. It is the link most likely to improve survival in adults who suffer sudden cardiac arrest. The length of time from a cardiac arrest to defibrillation is a major factor in the success of the

resuscitation attempt. LFD can first respond to these emergencies while waiting for an ambulance to arrive from Saskatoon significantly increasing the chance of survival.

Feel free to stop by anytime a member is at the Fire Hall or on Tuesday Training nights.

If you are interested in becoming a member, please contact Jory Wynd 283.4888 or Bill McCombs 380.7289.
